In case this is helpful to you, I have been reading the petition that Greenaction filed with NRC to request revoking its license. It is available at www.greenaction.org. Attached is a version in which I highlighted sections that I thought were most relevant to share with my technical team. I recommended that they focus on pp. 11-32. In addition, the main text makes reference to many exhibits. My attorney asked the Greenaction attorney for the exhibits. He put them into the dropbox below for our convenience.
