ENFORCEMENT CONFIDENTIAL CONTENT

Dear Angeles and John,

As we discussed on Monday 11/28, the Navy will host 12/5 a scoping meeting with CH2M Hill to discuss the scope of its independent review. EPA emailed recommendations 10/28, which I put into the 11/1 briefing for Enrique before the 11/3 Mayor's meeting. Since then, I have added a few items to the original list in separate emails to the Navy 10/31 – 11/15. In addition, the past few weeks, our health physicists have discovered some other concerns related to scanning of buildings. Attached is a revised version of the earlier document that includes the additions highlighted in yellow. Would you like to share this with Enrique also? We have the opportunity this Friday at 11 am to brief him on this before the 12/5 meeting as part of the meeting about community involvement at Hunters Point. It would help next Wednesday if I could say that as long as the navies contractor covers these items, EPA has no further comments for now.

By the way, CDPH will be at next Wednesday's meeting.

Lily
