Subject: Sesko Property

Mark,

I would like to follow up on our discussions regarding the Sesko property. DNR's derelict vessel removal program has identified a potential contractor who would remove the Sesko floats. The U.S. Army Reserve unit responsible for transportation of equipment needs training and may be willing to move the Sesko floats. The only costs identified thus far for the service would be for the materials necessary to weld patches over the open hatches on the floats. While this proposal is still at a preliminary stage, I thought I should contact you to make sure the City would be on board with such a plan. You may also be interested to know that the Reserve unit is apparently also looking for other projects in the Puget Sound area, if there are any other items the City may have need of removing from the shoreline.

Please give me a call to discuss the proposal. Thanks.
