Fyi Dean, I'm hoping they submit the results quickly and maybe we can get this thing to move.

thanks.....Darrel

I have been told that in the very near future we will be receiving an invoice from Staab for project delays. As mentioned in previous emails Ashland will not accept our sludge and I am now waiting for the test results from the WWTP lagoon to submit to the USEPA. Once received I am hoping that the USEPA will grant us a discharge blessing one way or another and we can begin this project with the Councils ok.
