Subject: RE: EPA-NERL visit to NJDEP - Draft Agenda

Andy,
I got your voicemail, I jotted down a few topics that will be of particular interest to NJDEP during your visit. I suspect that we would hit on most of these issues , but it may be good for me to specify them on the agenda to help focus the discussions?

- Lines of evidence to attribute source(s) to impacted potable wells in the Solvay and Chemours areas (air deposition, surface water to groundwater, targeted compound ratios, presence of non-targeted compounds)
- Estimated concentration of Solvay replacement compounds in tidal surface water and in groundwater samples collected from potable wells
- Differentiating Solvay vs Chemours comingled/ impacted areas (source signatures?)
- Linear and Branched isomers
- Extent of air deposition impacts
- Identifying data gaps to help answer questions above

Thanks,

Erica Bergman

Thanks Erica,

This looks great to me.

I'm really looking forward to meeting everyone.

Please let me know if I can do anything to help.

Andy

Subject: EPA-NERL visit to NJDEP - Draft Agenda

Tim,

See attached for the draft agenda for our upcoming visit with EPA/NERL at NJDEP. Let me know if you have any suggested edits of subjects or timing, we're flexible.

Thanks,
