Thanks. I did not even open the link to the Intercept article yet, but are the Science paper in final form and the accompanying Perspective available for you to share with me yet?

Subject: Fw: Intercept story on Science article

All,

This didn't take long....

This news story was just posted. The author contacted our press office and we worked with them to help provide some accurate facts regarding the article in Science . The press has asked whether the replacement was found in water, but DEP did not comment since it was not relevant to the Science article.
