Subject: The Fresno update

Here's the info that you couldn't retrieve via your bb messenger.....Bill Keener et al had just finalized the details of getting the CSU Prez to meet with you at 10:15 am Tues at CSU Fresno. (You were to land at 9ish, and the airport is near the campus.) We would then have two quick ceremonies, signing the new MOU, and then you would present the external award to the WET center. Mike Ardito was just getting ready to contact the press when.....

Kerry sent the email cancelling the CVAC and Ag meetings, which were to begin at 11 am. I pulled Kerry into my office (and Debbie Jordan was already there) to ask WTF? Kerry said in fact it was Paul/CVAC who asked to postpone the meeting. He also said he just recv'd your email chastising him for cancelling the meeting. So I asked Kerry to quickly email you the important factoid clarifying that in fact Paul et al really wanted the meeting postponed. So Kerry sent you that info.....

Then I told Bill/OPA to hold the presses (literally) on the morning ceremony(ies) til we could confirm with you whether you still wanted to fly to Fresno on Tuesday. Abi checked - you could either fly home from Phoenix the night before, and then fly to Fresno Tuesday morning. Or you could stick with your original schedule, and fly from Phoenix to Fresno Tuesday morning. Either way you would then fly back to SF from Fresno after the award ceremonies/press event.....

Or, we could postpone the events with the Prez and just bring you back from Az, to be here in the office all day Tuesday. So you could field the avalanche of press calls we anticipate with the Bay Delta PR on the Action Plan.
