Sue, what great pictures, especially the aerial shots of algae-laden waters. I've never had such a good view of the dams before. I gather the latter pix are up near Klamath, OR near the mouth of the river (e.g., photos w/lots of farmlands). By any chance was that Crater Lake in the very last shots? Gorgeous. I would love to get a label for many of the photos (e.,g. where the photo was shot). We can probably use them in our Tribal calendar next year.
