A Brief Discussion of Data Used by EPA for Assessing Effects of the GKM Release on Water Quality

Kate Sullivan
National Exposure Research Lab
EPA Office of Research and Development
Athens, Georgia

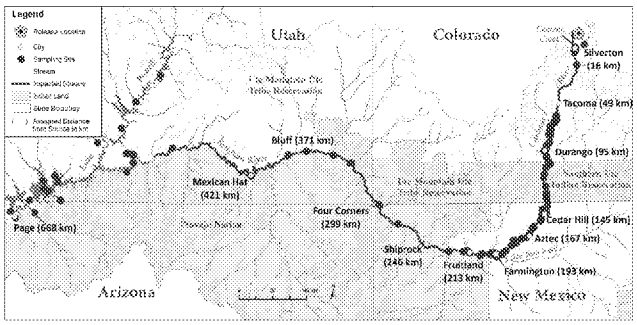
There has been a lot of data collected at many locations

3 Primary Sources of Data

- **State/EPA Websites oriented to Gold King**
- **USGS Gold King database**
- **STORET**

We meticulously chronicle data sources

- **Location (lat/long)**
- **Assign distance from Animas headwaters**
  (very useful organizing variable)
- **What data is available, where it was obtained**
- **Maintain copies of original data**



309 sites from Gold King to Page, Arizona
55 in San Juan River

Whole System:
--1,400 total and dissolved metals river samples from GK event to Sep 1 2016
--818 river sediment samples

San Juan River:
--592 water samples
--298 sediment samples

Quality Assurance

- **Data files all contain lab QA/QC information needed for understanding samples**
  - We have concluded we can consolidate and integrate data
  - Occasional differences among providers too big to ignore
- Providers differ in some key ways
  - Detection limits
  - Parameters (e.g. which metals; what methods)
- **We have built a link to all QA/QC documentation**
  - Largely complete
  - Some information hard to target out from documentation (digestion? filtering?)
- **We have done some error checking and find occasional errors and blunders.**
- **For the most part—data error free, good quality and can be integrated (but must constantly stay vigilant)**

	Matrix	Methodology	Parameter	Technology
Metals	Sediment	EPA 6020A	Sb, As, Ba, Be, Cd, Cr, Co, Cu, Pb, Mn, Mo, Ni, Se, Ag, Ti, V, Zn	ICP/MS[2]

[1] ICP-AES – Inductively Coupled Plasma-Atomic Emission Spectroscopy
[2] ICP/MS – Inductively Couple Plasma/Mass Spectrometry
[3] CVAA – Cold Vapor Atomic Absorption

What is generally used, but there is an exception to everything

Data Availability—EPA/ORD Project Files

- Data files will be shared with EPA OW offices responsible for Gold King Monitoring Plan going forward
- Data files will be shared with Regions as interested
- Data files will be available on website with published report
