Mr. Blumenfeld,

It was such a pleasure to talk with you yesterday and felt very inspired by our conversation. Here is my contact info: wahleah@gmail.com and phone (928) 637-5281

I talked with Marshall and Nicole with Tonizhoni Ani yesterday evening and they expressed a strong interest to meet with you in person here in San Francisco in November. They asked if you are available to meet Nov 19 or 20 or at your earliest convenience? As I mentioned yesterday, Marshall and Nicole have been doing all the educational outreach on BART/NGS to our local communities and feel like you all should connect.

I wanted to ask but there was so much to talk about yesterday, if you know of solar companies or experts that can help us think thru or demonstrate what a coal to solar transition could look like. I will be following up with Laura on the mercury related concerns. Let me know how is the best way to follow up, or figure out a part 2 of this conversation. I am here most of November.

All my best, Wahleah
