Please hold this time on your calendars for a meeting with Bob Diderich, Head of the EHS Division at the OECD Secretariat (this division has responsibility for the chemicals management work we do with OECD, including administering the GLP inspection program). Bob has requested to meet with OECA folks involved with our GLP inspection program during a brief visit he is making to Washington. He'd like to discuss the importance of our participation in OECD work and how OECA's work on inspecting GLP laboratories fits in with wider international objectives. (Bob is also meeting with those of us over in OPPT and OPP who participate in the OECD test guidelines and other work.)

Thanks,

Jessica (staff coordinator of OECD activities over in OPPT)
