Laura,

Since you are the appointed GSA liaison, please provide concurrence to Neil's statements to each of his emails below. Since the computer servers will be located at Water Street, the concurrence will also ensure that safeguards are in place to ensure that the servers are solely for use by the OFP . Once I have the concurrences, I will approve funding.

Thanks

Joe

Colleen,

It was great speaking with you once again. We should do this more often.

I would like to also confirm that the servers are meant for OWJC and are not OWJC/Foundation.

Thanks,

Meet w/ Regional Counsel they concur ok to order.

Ladies,

Sorry about the confusion.

It is correct that the servers will be shipped to Water Street Site. Their final location is going to be Water Street based on the following:

-IT Systems Staff is located at the Water Street Site; any troubleshooting with the servers can be done ASAP.

-AC cooling at Harlem is not guaranteed to handle the load, while we can add about 10-15 more servers in the Water Street Site.

-We have setup a dedicated line between Water and Harlem so that the staff in Harlem can take full advantage of every IT Resource. The GSA sponsored IQ Server is housed at the Water Street Site and provides services to Correspondence Dept based in the Water Street Office and Scheduling Dept at Harlem.

Thanks,

Neil Carvalho | Senior Desktop Engineer

Good morning Colleen,

I believe the servers are being shipped to Water St for set up and will be transported to the Harlem office.

Neil can you please confirm.

Thanks

Linda,

These both say they are going to the Foundation office at Water Street. Is this correct? If they're for the Foundation, we would not pay for them.

Hi Colleen,

Attached please find the quotes for 2 servers (1) Dell-PE R710 w/ Chassis and (2) Apple –Mac mini with Lion Server, disk drive and protection plan. These items have been pre-approved by Laura Graham for the Harlem Office.

Thanks,

Linda

It appears ok, but if you have any doubt we should check with Regional Counsel

Sorry, Helen, I just realized that DVR service is internal and does not require additional equipment, except for a box, so am I correct in assuming you just want to add DVR service to your bill?

Joe,

I got a call from Helen Robinson of the Clinton office. They would like to get a DVR and have it included in their DirecTV bill. Is that OK?

Subject MEMO FOR FILE

Re: Acct Mgt pays lessor for tax period in advance

Meet with Carol Latterman and Lionel Batley to discuss the above. They indicated that the above is not per-payment to the lessor because the lessor paid the NYC, Once the lessor pays the city, it becomes an obligation to GSA and may be paid.

We are not paying for a period in advance of the CR, because it became an obligation to GSA when at the time when the City was paid.
