Subject: **Calscience Work Order No.: 02-06-0605**
Client Reference: Boeing

Dear Client:

Enclosed is an analytical report for the above-referenced project. The samples included in this report were received 6/17/02 and analyzed in accordance with the attached chain-of-custody.

Unless otherwise noted, all analytical testing was accomplished in accordance with the guidelines established in our Quality Assurance Program Manual, applicable standard operating procedures, and other related documentation. The results in this analytical report are limited to the samples tested and any reproduction thereof must be made in its entirety.

If you have any questions regarding this report, please do not hesitate to contact the undersigned.

Sincerely,

Calscience Environmental
Laboratories, Inc.
Stephen Nowak

GLOSSARY OF TERMS AND QUALIFIERS

Work Order Number: 02-06-0605

Qualifier	Definition
3	Spike or Spike Duplicate compound was out of control due to matrix interference. The associated LCS and/or LCSD was in control and, therefore, the sample data was reported without further clarification.
D	The sample data was reported from a diluted analysis.
ND	Not detected at indicated reporting limit.
X	% Recovery and/or RPD out-of-range.
