Hi folks – where are we on this? We have a 10-12 so we must send this before then to Ken. If I do not hear from anyone before 10, I am putting in final and sending to Ken. Thanks

Attached are my responses to the inquiries.

This draft addressed only a limited portion of the investigation; primarily, my review of the February 2016 supplementary information submitted following T6's interview. I additionally reviewed some of the ADEM regulatory records to gain an understanding of the facility's design, operations, and compliance. Likewise, I reviewed some of the County's information to gain an understanding of the local government's approval and to identify any potential local operating prohibitions.

I cannot speak to the original complaint allegations or the contents of the complaint's historical records. Likewise, I do not know the basis of why some elements were omitted and other not included (complaint allegations) in Jonathan's revised draft.
