My initial request was to identify the concern in the original complaint. The outcome of this complaint assessment is this list. I am currently reviewing the addendum to the complaint that is dates December 2003.

Jonathan is ensuring that the concerns from this list are included in the closure letter and that an analysis of these concerns are addressed. I will review and provided comments.

Thanks Jeryl, this is the list that she provides in her letter to ADEM which she forwarded to us. But by itself this is just a list. Can you please work with Jonathan to make sure these are the "Harms" considered and also consistent with the complaint itself and that Jonathan is analyzing each of these re the causal connection?

Will I have the analysis by 4:00 or more like 5:00? Thanks Jonathan and Jeryl!

P/S I called Nancy Tommellio and left here a very long voice message detailing the time constraints here, issues we are considering, the relationship to Yerkwood, etc., and letting her know I needed to discuss with her where we are and needed her assistance to make sure we are considering/reading Yerkwood correctly. Waiting for her call.

**Subject:** Sept. 2003: Tallassee Complaint Assessment

Attached is my assessment of the issue raised in the original Tallassee complaint dated September 3, 2003 (attached).

Please note that the items of concern and comments that have been part of the complaint investigation arise from the written comments submitted to ADEM on August 29, 2003 that were attached to the September 2003 correspondence.
