Subject: ACTION: Texas Regional Haze BART and Interstate Visibility Transport Final FIP

Reviewed and approved the Texas RH FIP **Final Rule** action and attachments.. This final action affirms, with certain amendments, a final rule promulgated on October 17, 2017, that partially approved and partially disapproved the 2009 Texas Regional Haze State Implementation Plan (SIP) submission and promulgated a Federal Implementation Plan (FIP) for Texas that included an alternative to Best Available Retrofit Technology (BART) in the form of an SO_2 intrastate trading program to address the SO_2 BART requirements for Texas EGUs.

RA Signature of Transmittal Memo and concurrence on the Federal Register notice is June 12, 2020. Target date for Administrator signature of Federal Register notice is June 30, 2020.
