The report is address to you as part of the GMP reporting requirements.

I saw changes from the last three in language. I think if there is a concern relative to the information or extent or interpretation provided we should comment on the report.

I have not reviewed that report as yet. While I have not provided any specific direction or request to do so to Jim, we certainly can ask him to if you would like. Please let me know.

Have either of you reviewed the 2017 Annual GMP report for the Tinkham Site submitted on 1/30/2018 and do you plan to submit comments?
