Yes, the 1/15 meeting with KDOW is the issue I am working on with Ashley; however, I did not invite Ashley because that may mean we get less information from KDOW.

NCCOS is the National Center for Coastal and Ocean Sciences with NOAA.

Please also consider adding to the weekly that I am developing a response to comment from the Office of Surface Mining Reclamation and Enforcement (OSMRE) for Kentucky's Regulatory Program Amendment regarding new regulatory definition of "long term treatment" that pertains to NPDES issues. The request for comment was received by the RA's office on 12/27/19 and I received it on 01/10/20.

01/15/20: Meeting with KDOW to discuss ESA concerns with coal mining facility
Is this in conjunction with our wetlands regulatory program- the issue you were working with Ashley?

What is NCCOS?
