Lisa, we don't have a firm date yet for the DPT work, especially since access may still be an issue, but we are certainly hoping and planning to do the work in late November/early December if at all possible. But, yes, EPA will provide Ameren with a copy of the work plan at the same time we have it available to share with the city. If the city and/or Ameren have substantive comments, such as recommendations for additional DPT locations, EPA will consider those comments and make amendments to the work plan, if needed. EPA would also be happy to meet with Ameren after you have had a chance to review the plan to talk through any comments/recommendations you may have.

Subject: DPT plan review

Tonya,

I hear the DPT north of Huster is projected to start the end of this month/early December. Would it be acceptable for Ameren to review and comment on the plan prior to commencement? Not for the purpose of getting Ameren's approval by any means, but instead to provide plan feedback based on our historical knowledge of the site.
Thanks,
