Date:	Saturday, November 2, 2019 2:06:12 PM
Importance:	High

Duane and Joni:

After all the e-mails and voice messages, a couple critical issues still should be forthcoming:

1. Initial polrep highlighting and/or emphasizing the EPA's position on this case (jurisdiction under OPA), summary of RP's actions to date, stakeholders involvement or role in a unified command, etc., identified with POC name and phone number.

2. Property along pipeline pathway, right of way pipeline pathway and property owner(s) along spill location, for purposes of claims (damage property from oil spill), and any NRD concerns from the Trustees.

3. Details as you feel relevant in polrep.

Regards,

Bob H.
NPFC Case Officer

Subject: FPN E20801 - TC Energy OIl Spill

Duane and Joni:

Duane, as we discussed today and you gave me your position on WOTUS, NPFC now would like to get an official position from EPA Region 8 that this oil spill meets EPA's jurisdiction and that an official nexus to a waterway (WOTUS) has been determined (wetlands to river) connection. Obviously, you will have to engage your attorney, but NPFC feels this is needed to document the uniqueness of this spill.

Any questions, my attorney is Kei Hemminger (202-795-6057).
