Joni:

I should have checked my incoming traffic before the e-mail I just sent which still applies because an FPN was opened and funding used. Initial polrep with details as stated in e-mail I just sent. If that is your position, you can state it like it is, but for future planning, this will be a requirement to address for any case. You can address the other elements in my e-mail as you feel is necessary.

I am available to discuss anytime, if needed, my cell is 540-642-3795, home is 540-720-2246, and office 202-795-6081.

Regards,

Bob H.
NPFC Case Officer

We have decided to let the state take the lead and Duane is coming home today. Do you still need more info from us?

> Duane, as we discussed today and you gave me your position on WOTUS, NPFC now would like to get an official position from EPA Region 8 that this oil spill meets EPA's jurisdiction and that an official nexus to a waterway (WOTUS) has been determined (wetlands to river) connection. Obviously, you will have to engage your attorney, but NPFC feels this is needed to document the uniqueness of this spill.
