Date: Monday, August 01, 2022 8:14:27 AM

Hi Tonya,

Here's the bulleted items Ameren would like to discuss during the monthly meeting with the City:

- Recent results map for wells on and off site
- PZ-11 and CW-6 lab results – current and future sampling frequency.

Lisa

Lisa, I'm sending this to you because I'm not sure how much Barb is working at the moment. I spoke with Barb previously about developing a short, bulleted agenda for our quarterly technical calls moving forward. I really do expect these agendas to be short and simple, but if you could send me some bullets about what Ameren plans to discuss during the quarterly call next week by noon on Tuesday, I will attach everything to the meeting invite. I have asked the city to do the same. That way everyone will have an idea of what other parties want to discuss prior to the actual call. I have also asked the city to provide any data they want to discuss ahead of time so it can be attached to the meeting invite. In the same vein, please provide any data Ameren plans to discuss along with the email that includes your agenda items so that I can make sure the most recent data you will be referencing is attached to the invite.

If you have any questions, let me know. Thanks!

Tonya Howell
