Hi Steve,

Based on the feedback we got from Ken Rhame and the research that Vivian Craig conducted last month (please see below and attached), it came to our attention that we may need to coordinate access to Section 13 with the Navajo Nation in addition to the BIA. The BIA has provided their approval to allow access to Section 13 in a letter dated July 23, 2018. Accordingly, determining Navajo Nation's requirements to grant access to Section 13 (if any) is the only remaining access coordination hurdle for TCRA field implementation.

Per your request during our call earlier this afternoon, I am forwarding to you the Navajo Land Department's contact info. We called Mike's office and left messages with the staff several times (I think 7) since Vivian forwarded his contact info to me on July 18, 2018. He had been out of the office/in meetings during most of these calls and has not returned out calls.

Thank you in advance for offering to help us on this effort,

Maher

Steve:

Good morning, would you please let me know if Navajo Nation has an interest in Section 13 (AKA as Bebo Trespass) of the Map attached. Navajo Nation might have an interest after the Land Buy Back that happened last year. I would like this information as soon as possible please. The township numbers are on the email from Mr. Zein.

Thank you,

Vivian

Hi Vivian,

Thank you for joining our progress update call earlier this afternoon. Your assistance on this project is always appreciated.

Per your request to facilitate your coordination effort with the Navajo Nation regarding access to Section 13 (Bibo Trespass), please find attached a site plan depicting the locations of the proposed TCRA areas at the site.

The TCRA areas of Section 13 are located within: SE 1/4 Section 13, T13N, R11W.

Please let us know if you need any other information that may expedite obtaining approval to access Section 13 for TCRA implementation.

Thank you,
