Subject: RE: Haystack Site Visit Agenda
Attachments: AUM Database of Mines near Haystack No 1.xlsx

I was asked if MMD could provide a list of mines near the Haystack No. 1 site from the AUM database, which is attached. I limited the search to mines within T13N, R10W and 11W.

If you have any questions, please let me know.

Thanks,
DJ

Subject: RE: Haystack Site Visit Agenda

Thank you everyone for an informative site visit.

Attached, for your information, is the joint guidance NMED and MMD have developed uranium work in the state of New Mexico. With this guidance, we recognize each site is unique and may require something different or in addition to this guidance.

Feel free to contact DJ and I with any further questions-

Thank you,
Amber

Thanks for the update regarding inviting NMED. We have also invited Lester Tsosie and Jerry DeGroat with the BIA as they have been helping us with coordinating access to Section 18.

Will it be you, Warren, Priscilla, and Zizi attending the meeting from the EPA's team?

Regards,

Subject: Re: Haystack site visit

Zein,
I just want to confirm our site visit next week, March 29th. My understanding is that we will meet at 9 am at the closed bar (is it tomahawk bar?) at the Pruitt Exit off I-40.
I have extended the invitation to NMED, and just trying to make sure we are all on the same page.

Thanks,

Hello Ken,

I was given information about your upcoming visit to Haystack from Jeff Lewellin. He will be away on the 29th, so I will attend in his absence. We met at the Section 10 downhole camera field session last year.

Mining and Minerals Division is also interested in attending; DJ Ennis is the contact and he is cc'd on this email.

As we will be traveling from Santa Fe that morning, is there any chance the start time could be moved to 9am instead of 8:30?

Thanks,
Amber
