Subject: recap from Williams BCT this morning

1) We settled on a date of Weds Aug 24 8:30 – 4 for next BCT meeting, which will mostly focus on ST12 reconnaisance data
2) Williams 5 YR now projected to come in by early August, AF proposes to move from Draft directly to final once they receive our comments to meet Sept 30 deadline. I told them given the late submittal we may proceed to make our protectiveness determinations based upon the draft as we have done for previous 5YRs.
3) They anticipate sending us a draft OPS report for the LF004 landfill in August for review
4) Site closure reports for ST035 former gas station and FT002 Fire Training Area also coming in August.
5) From Parcel N meeting earlier this morning AF is agreeing to proceed with a CERCLA RI after finalizing the SI for MEC.
