Subject: ground rules for weds

I just got off the phone with Angeles. It is her understanding and expectation from Phil that AF (Cathy) will be giving the presentation and doing most of the talking on ST12 and Amec will only be there to answer questions that are put to them given that we are now in informal dispute. Somehow, I don't think Don and Cathy got that message but that is the expectation that Angeles has. She was going to call Phil again this afternoon to reinforce that. Anyway, Angeles and Tina are now in charge of the discussion on ST12 as we are in dispute at their level. Angeles does not want any discussion of the EBR workplan rtcs at this meeting, and she does not want us getting into debates with Amec. EBR is currently under stop work until characterization issues are resolved. The purpose of this discussion wednesday is only to discuss the recently acquired data, its interpretation and data gaps. Angeles will set that tone from the beginning (and will have another call with Phil beforehand) We should direct our questions and comments to Cathy/AF rather than to Amec (even if Don is presenting) during the discussion Wednesday. Angeles will be there for the first hour, but then has to duck out for another meeting for an hour, but will then be back, Loren will also be on the phone for the entire discussion and will be enforcing the ground rules.
