Wayne,

Attached is my daily report for Friday 6/4. Well LSZ46, east of Sossamn Rd., about 120' south of W37 is being installed. Cuttings showed possible NAPL near the top of the LSZ at 210' - 212'. Noticeable HC odors from 210 - 225 or so, but not real strong, except for 210 - 212 interval. No odors and low PID at 230', so the well is being constructed with screen from 210 - 230.

Will be here until noon or so; 3 rigs onsite; LSZ46 under construction and two rigs drilling onsite.
