Okay, thanks Doug. We'll give it a shot and see how we do. I may have other questions next week.

Have a nice long weekend,
Faye

Hey Faye

Good to see you too. Seems like we made some progress on Tuesday. Clearly we made a ton of people aware of our work, so that is good.

We do not have a template at this point. I have two suggestions. Look at the use documents, and could follow that format for information. Or just comment on the use documents.

The other suggestion is to look at slide # 6 and slide #14 from the ppt. That has some direction on the types of information that could be helpful to the process. Here is the link to the ppt

https://www.epa.gov/sites/production/files/2017-02/documents/tsca_chemical_use_final_presentation_2-14-17.pdf

I will be at Global Chem next week of you want to chat more. Or we could schedule a meeting with our team if that would be useful. Or just call anytime.

Hope you have a nice holiday weekend. And thanks again.

doug

Subject: Questions for You

Hi Doug,

Good to see you on Tuesday.

I think the meeting raised a lot of questions in terms of what to submit as the volume could be huge.

Does the Agency have any kind of template that they would suggest for use when responding?
If so, that would be most helpful. Also, how do you want CBI to be handled?

Thanks,
Faye
