Then I have no idea who would be requesting that, please let me know. Strange…

Yes, I can't do 1 p.m. on Tuesday but suggested 11 a.m.?

Nope. Congress does not need to submit a FOIA. There are procedures in TSCA on how to provide materials to Congressional committees. Let me find out. I will ask Toni, but think he is out today.

Can you chat next week?

Hi Doug,

I tried to send a response via my phone earlier but don't know if it went through.

I got a call from the House Science Committee the other day, after an IRIS hearing where TCE came up, asking me about the outstanding HSIA
request for correction of the TCE work plan. Are they the ones asking? They are the only ones I could think that would want all that correspondence.

Faye

Thanks. Yes, we are in. Sorry for my delay. I will send out a scheduling invite today. Did we have an agenda?

We got a FOIA asking for all correspondence between EPA and HSIA from 2012.

Did you know about that?

And can we catch up on paint remover/bathtub labeling next week?

Hi Doug,

Good job on the DCM workshop on Tuesday, I think you got some excellent input.

I was wondering if you'd made any progress on this meeting request?

Thanks, and have a nice weekend,
Faye

Hi Doug,

Hope all is well. Just got back from 7 days on Cape Cod, very nice!

I finally heard back from the perc maskant users and they would like to request a meeting with you, Tyler and the whole perc team for either
September 26 or 27. Mid-day, say around 1 p.m., would work best.

They are flying in just for this meeting. Attending will be representatives of AC Products, Weatherford Aerospace, Spirit Aerosystems and Triumph Group.

Let me know if that will work.

Thanks,
Faye

Hi Doug,

Summer is great so far. Playing a lot of golf!

I haven't heard from these folks since May. I will circle around and see if they still want to meet. Hope Tyler had a nice vacation.

Talk to you soon,
Faye

Hey Faye

I hope you are well and enjoying summer. Just looping back on this. And Tyler got back yesterday. So glad to meet.

Let me know.

Thanks, doug

Let me check with them and get back to you. I think we should wait until he comes back but we'll see.

Thanks
Faye

I have a question. Do you have flexibility on dates? Our key perc person, Tyler Lloyd is out from mid-June to July 11. Would it be possible to hold this meeting when Tyler is back. I guess he is going on some long camping thing from Alaska to California. We can do it wo Tyler but wanted to give you the option.

Subject: Request for a Meeting on Perchloroethylene

Hi Doug,

I would like to formally request a meeting with EPA to discuss the use of perchloroethylene in chemical milling maskants and coatings.
I identified this as a use of perc in HSIA's use comments filed on March 15th.

The representatives of this industry would like to brief EPA on this crticial use of perc. They would be available to
meet on Friday, June 16, Thursday, June 22 and Friday, June 23. They would be flying into DC specifically for this meeting and a mid-day meeting
would work the best.

Tentative attendees, in addition to myself, would be:

AC Products Company – Peter Weissman, Global Aerospace Business Director; Peter Mehta, Environmental Safety and Health Director
Spirit Aerosystems – Melisa Carpenter, Environmental Health and Safety Director
Weatherford Aerospace – Al Solis, General Manager
Ducommun – Robert Cowan, EHS Director
Triumph Aerostructures – Michael Corballis, Technical Director

Thanks for your assistance in putting this meeting together, Doug. I will wait to hear back from you on what works best for you and
your colleagues.

Best regards,
Faye
