Cathie

Good Afternoon.

Just wanted to pass along information we sent yesterday to St. Charles County via their County Counsellor.

This is a follow-up to a meeting held in late October. Note that we have offered to hold a technical briefing session for them.

SUSAN B. KNOWLES : : Director & Assistant General Counsel **: :** T 314.554.3183 **: :** F 314.554.4014
Ameren Services Company : : 1901 Chouteau Avenue, MC 1310 **: :** St. Louis, MO 63103

Rory

Apologies for the delay. As a follow-up to our meeting on October 25, 2022, attached is a spreadsheet that details sampling data from the 2014 when we began our groundwater treatment activities to the present. We also attempted to synthesize the more salient information in the attached summary sheets. As mentioned, sampling events are occurring every two weeks at PZ-11 and City Well 6 and the spreadsheet gets update when final verified data is received and reviewed by Ameren.

The public comment period on the pending Consent Decree has been extended to December 5, 2022. We understand that USEPA intends to hold a public engagement meeting in mid-November.

Prior to that event, and if of interest to the County, Ameren could make available some of its technical experts to answer any questions regarding the data, actions taken to date, status of ongoing investigations etc.

Kindly advise if that that would be helpful to you and we could arrange a virtual meeting at a mutually convenient time. We would ask that the meeting be restricted to St Charles County officials and employees. Ameren, MDNR, USEPA and the City of St. Charles participated in their standard Quarterly meeting this week.
