No problem, Doug. I just don't have the name yet but we can set up a call when I do.

I heard from Barbara after you sent out your memo and she is sending you her title and the correct name of her company.
You should hear from her shortly.

Faye

Faye

That sounds good. Thank you. We have talked with all the speakers before putting them on the agenda. We go thru the purpose of the workshop, the background on the risk assessment, and an outline of the presentation, etc. So we would do this before putting the person on the agenda. I am around M, T, and W next week. And you are glad to participate in the conference call too.

Also, can you send me a title for Barbara K's talk. I think I just guessed and put solvent selection since I wanted to get something to everyone this am. Glad to amend it so let me know.

Best, doug

Doug,

I just spoke to a company in Michigan that sells degreasers and he can get you a company rep to speak who actually uses
degreasers so please find a slot on the agenda and I will get you the name and contact information next week. As you
mentioned when we talked on Wednesday, this is just the type of person you were looking for!

Have a nice weekend – and a nice Anniversary celebration!
Faye

Yes, likely. Give me the contact information and I will call em to see if we can fit them in.

We are trying to limit public comment to five minutes. Do you need other arrangements?

Thanks, doug

Doug,

Two questions.

Would you be interested in and/or have room on the program for a person who sells the equipment for degreasing, regardless of what they use in it?
He could provide an overview of the industry doing degreasing.

Are public comments at the meeting limited to 5 minutes or another amount of time?

Thanks,
Faye
