Subject: FW: TGTI PSD Application Request for Additional Information - Second Response

Jeff,

I just realized the document I provided on August 31 (the second response for the PSD letter) had highlighted text related to meeting in person if you'd like to discuss the topics further and it didn't have my signature. That was an oversight on my part (I failed to grab my final document with the highlighting removed and my signature added). Attached is the version I intended to provide. There are no differences to the response text. Sorry if this causes any confusion.

Regards,
Brian

Subject: FW: TGTI PSD Application Request for Additional Information - Second Response

Jeff,

Texas Gulf Terminals Inc. (TGTI) appreciates EPA's timely technical review of the permit application. Please find attached TGTI's Second Response to the New Source Review (NSR) Air Permit Application Completeness Determination letter dated August 10, 2018. This letter follows yesterday's submission by providing responses to Questions 2, 3, 5, and 7 to assist with EPA's Prevention of Significant Deterioration (PSD) technical review process. If you have any questions, comments, or suggestions, do not hesitate to contact me at (972) 661-8100 or Denise at (832) 203-6493. As noted in the response, if it would help with the technical review process we can meet to discuss in more detail the proposed compliance monitoring strategy, BACT considerations, and emission calculation procedures.

Sincerely,
Brian

Subject: TGTI PSD Application Request for Additional Information

Denise,

Attached is our letter that requests additional technical information to supplement the PSD permit application. As noted in our call on Wednesday, there may some additional questions or items we need to discuss related to air quality impact analysis and possibly some questions where the PSD permit application BACT analysis for VOCs interfaces with your Section 112(g) case-by-case MACT application regarding emission reduction opportunities. Please let me know if you have any questions or if you would like to schedule a discussion.

I appreciate the productive dialogue we've had so far on your project.

Jeff Robinson, Section Chief
Air Permits Section
EPA Region 6
