Subject: Former Williams AFB, ST012 Liquid Fuels Storage Area

Reference: 8 Feb 2017 Letter from EPA/ADEQ to AFCEC, Former Williams AFB, ST012
10 Feb 2017 Letter from AFCEC to EPA/ADEQ, Former Williams AFB, ST012

The above referenced letters were submitted concurrently, and subsequently discussed in the 14 February 2017, BRAC Cleanup Team (BCT) meeting in Phoenix, AZ. In the meeting it was acknowledged the approaches outlined for ST012 in the two letters are in conflict. Detailed discussions were held during the BCT meeting including review of characterization results, updated mass estimates, regulatory concerns and comments on Enhanced Bioremediation (EBR). The outcome of the meeting was an agreement for EPA and ADEQ to work toward resolving remaining issues and implementing EBR.

The Air Force is committed to implementing the ST012 remedial action work plan, and achieving remedial action objectives within our ROD Amendment's estimated timeframe. Please contact me at (916) 643-1250, ext. 100 or philip.mook@us.af.mil if you have any questions or concerns.

Sincerely,

Philip H. Mook Jr
