I have already initiated discussions with staff to final our best remedy for alternative water source and/or water treatment. Recognizing the responsibilities and authority of EPA, we will need to keep you informed and draw on your expertise.

Subject: RE: Administrative Orders on Consent

Mr. Sidney,

Thank you, your staff, and the FMCV's leaders and for taking time out of your week to sit down with us to discuss what we believe and know is a top priority, that is safe and compliant drinking water. We hope our meeting and discussions were helpful to FMCV and we look forward to continuing to work with FMCV and the Tribe to find a path towards compliance. Please feel free to call me if you have any questions or concerns.

Roberto Rodriguez, Manager

Subject: Re: Administrative Orders on Consent

Please accept our most sincere appreciation for our meeting today. I attempted to convey the importance of addressing a permanent resolution to our water wells having high levels of arsenic. We recommend a working dialogue and communications for a remedy whether it be by the current HAMP or other method. A timely resolution would serve our best interest.

Subject: Administrative Orders on Consent

Dear Ivan and Jeff,

We apologize for our late arrival today, it took us longer than anticipated to drive from the Phoenix Airport to Tuba City.

I am attaching some Administrative Orders on Consent that EPA has entered into for various Public Water Systems for your reference/information.

We look forward to meeting with you tomorrow, thank you for rearranging your schedule.
