Chris:
My legal people asked for a "date of execution and a pdf of the signature page." I guess to keep it legal (keep the feet to the fire) a signed and dated fist page would be just peachy.
I was able to convert the pdf file to a text file and convert the text file into a word document. Ah, as you can imagine, there is always that "lost in translation" story. Oh, it's all there; just some spacing issues which means I now have a 300 page document. All you can do is laugh about it.

Hi Mark,
That was Julie's project and she is actually out for a week. I can find out though. We typically do not release word documents, only PDFs.

Cheers,
Chris

Thanks for the Document. Do you have any idea when it was signed/approved. One last thing, do you have a word version of the document. It is impossible to cut and past from a PDF document if you do not have Adobe Acrobat.
