OK, Looks like the EPA players are available next Tuesday at 2 PDT = 11 AM HST. Does this time work for Chip and Steve? If so, please provide us with a phone number where we can reach you, or you could come to my office for the call.

Subject: USGS help with Lahaina

Hi Janet,

We recently brief Cheryl Okuma, Director of the Maui County Dept. of Environmental Management, on Chip's nutrient and wastewater surveys in Maui. Much of the discussion focused on what we know and what we don't know Cheryl is very interested in Chip's suggestions for follow-on work by USGS and others. She has called Chip several times but the conversation seems to lack a clear set of questions and metrics to address given the many pressures from EPA/DOH and the community. I'm thinking that a conference call with you, Wendy, and others at EPA would be helpful. Chip would explain what he and Cheryl have been discussing and you could provide some guidance / direction that Chip could follow-up on in subsequent discussions with Cheryl.

Let me know if you are interested.

Thanks, Steve
