Nancy,

Yes, let's put it on the agenda - good to keep Lahaina on their radar. Recall that Stuart reviewed an earlier draft of the order, so he should be more or less up to speed. We will hopefully also have some concrete dates to share by then. Thanks.

David,
Next monthly called scheduled with HDOH is June 16th. Let me know if you want to put this on the agenda and join Tina and I to brief Stuart and possibly Gary. or we could schedule something separately.
thanks,
nw

David, this is all good news, welcome progress in a very long journey. It is wonderful that we could have a consent order, while continuing to progress on other fronts (the studies, longer-term increased reclamation). It leaves me wondering about reissuing our UIC permit - what are we leaving behind (for now) that would be in the permit but is not in the order? let's ensure you and Nancy brief Stuart and Gary in July, and then let's plan on outreach / communic with the citizens, NGO and press. Congratulations!
Alexis

Subject: Lahaina disinfection order

Hi Alexis,

We are very close to reaching a deal on this enforcement action, so I thought I would be sure you don't have any concerns or questions. The agreement we are working on -

- gets them to full non-chlorine disinfection (R1 quality for reclamation) by Dec 2013
- requires an immediate step up to R2 quality
- since treatment to R2 will be done by increased chlorination, order requires County to sample for THMs and meet specific concentration limits
- order is for compliance only, but includes stipulated penalties for violation/non-performance of specified conditions (e.g., not treating to R1 after Dec 2013)

Once we resolve the last few items - language dealing with upset/breakdown and "high flow" days (they want blanket exemption, we're giving force majeure and standard upset clauses) - the County will have to take the order to their County Council (late July meeting) and then the Mayor would sign followed by you signing.

This is the crib notes version, but I'd be happy to have a lengthier discussion if you have questions.

Thanks,
David
