---

Thank you and I look forward to hearing from you. Once the CD is available I will send a courier service to pick it up. Thank you again

Best

Craig

Mr. Mitnick,

Asking for 18 years of correspondence instead of 23 years of correspondence is not narrowing your request. However I talked to our records staff and they may be able to get a CD made with the correspondence from 1999 through this past August. This will take a few days and cannot guarantee it will be ready by Friday. I can let you know the status by COB tomorrow. We can send you the CD when its ready which would save you and your clients money and time but if you insist on traveling to our office to view the CD contents we can set up a computer for you

I would prefer to come in if everything is electronic and determine what documents I need. However initially I am only interested in documents from 1999 through the current date. Hopefully this will help. Can we confirm that I can review this information on Thursday or Friday of this week with my associate. I look forward to hearing back from you

Mr. Mitnick,

As previously explained, the history of these sites goes back over two decades. Asking for all correspondence is overly broad and burdensome. Furthermore, the links I sent you included several letters between EPA and Sherwin-Williams. Perhaps if you examine those letters, that will help you narrow your request.

Yes, I received the administrative links, however that is no what I am looking for. I am requesting

access to all documents in the possession of the EPA that constitute correspondence between Sherwin Williams and the EPA in regard to the Gibbsboro sites. My request was formally made over two months ago and I believe that all of this correspondence is public record. Again, I would request reviewing those electronic and/or paper documents no later than Friday of this week. Please advise.
Best
Craig

Mr. Mitnick,

As I explained to you previously, there are no paper documents to look at. Everything is electronic. I emailed you links to the administrative record for the three sites. Did you receive that email?

Carla

I am requesting an appointment this Thursday or Friday to come into the EPA offices in NYC

to review all non administrative documents in regard to the Sherwin Williams gibbsboro, NJ superfund sites. Specifically I am requesting to review all correspondence Between Sherwin-Williams and the EPA and other entities that you were in possession of. Please let me know.
Thank you
