**Date:** 03/12/2012 11:21 AM

---

Hi Yen-Vy:

After discussing this request with Deborah, EPA has decided that a request for delay due to financial considerations is not appropriate. Accordingly, we would expect this work to begin this Monday, March 19, as planned.

Let me know if you have any questions.

Thank you

Rob

Subject: Smitty Toppenish (EPA Facility ID 4260087) - 2nd phase bioremediation delay

---

Good morning Rob

The 2nd phase of bioremediation for the former Smitty Conoco Toppenish facility was scheduled for March 19th – 21st, 2012. However, I'd like to request your consideration for allowing us/RH Smith to delay this phase of work by 4 to 6 weeks. RH Smith is under financial strain and is not current with their payments to AEG for previous work completed including Supplemental RI and initial phase of bioremediation.

RH Smith will be back on track to have us conduct the 2nd phase bioremediation by the end of April 2012. I look forward to hearing back from you and thank you for your consideration.

Regards,
Yen-Vy
