Hi Dan,

Please find two copies (one highlighted and one clean) of the A21472 Plus VaporGrip Technology label. We have made the majority of the changes as requested (highlighted in [redacted]) however there are two requested edits that we would like to discuss further with the Agency. I have identified these as comments in the highlighted version. Please note that there was also a question asked in the Agency's label comments related to the smaller list of states that are allowed for preplant applications to cotton. This is based on potential s-metolachlor related crop injury to cotton from preemergence applications that can occur outside of the listed states. This is consistent with cotton label use directions from registered S-metolachlor containing products such as Dual Magnum on cotton.

Sorry Monty, please use this file instead. I found one more thing.

Thanks,
Dan

Subject: Label Comments

Hi Monty. Please see attached for EPA's comments on the latest draft labeling. Let us know if there are any issues that we need to discuss.

Thanks,
Dan
