Subject: RE: EPA/MD Anvil/Biomist and PFAS Update
Attachments: Fwd: Message from Ted Bean

All,

Thanks for your participation in today's call with Maryland, appreciate the effort in coordinating in advance of the meeting and the swiftness with which everyone adapted to the news of MD's switch to Permasease 30-30 as their mosquito control product. A few follow-up items:

1.) Kevin Conroy (Assistant Secretary at MDA) has sent the letter discussed on today's call (attached). The letter has an Inhance Technologies logo (though Adapco is in the PDF file name) regarding PFAS levels in their processes/products.
2.) Brian Pendergast agreed to be the POC for coordinating samples from the MD facilities and providing his email here as well: brian.pendergast@maryland.gov
3.) As information becomes available for the status of Permanone testing, we've agreed to update MD.

Please feel free to reply all with any additional comments or follow-up items for today's call. If any additional emails or calls with MD are necessary for this topic, I can also coordinate future communication.

Thanks,

Sandra O'Neill
AAPCO/SFIREG Project Officer and EPA Region and State Liaison
Environmental Protection Agency
Office of Chemical Safety and Pollution Prevention
Office of Program Support

Subject: EPA/MD Anvil/Biomist and PFAS Update
When: Monday, May 17, 2021 10:00 AM-10:30 AM (UTC-08:00) Pacific Time (US & Canada).
Where: Microsoft Teams Meeting

EPA's Office of Chemical Safety and Pollution Prevention and EPA Region 3 would like to meet with the Maryland Department of Agriculture and the Maryland Department of Environment to exchange information on product packaging of Anvil 10+10 and Biomist 30+30 ULV and to provide a general PFAS update.

Agenda topics will include:

- Status of the product packaging issue
- Maryland's operational needs for beginning applications, product availability, etc.
- General check in on the PFAS topic
