Subject: SI information for Bulk Plant just up the road from where you are in John Day
Date: Tuesday, May 26, 2015 10:28:18 AM
Attachments: Well Query Report-CanyonCity.PDF

Hi Brooks,

I think the report (links below) will give you a lot of good information. Almost exact same situation just a bit further down the road towards Burns – bulk plant – vapors - same canyon - same geology etc.

Get a power probe with extra ump if you are just trying to get grab gw but if you plan on wells you will need hollow stem, air, or sonic rig. The file for Jackson is in another office so I can't pull logs for you but I did query WRD for you. See the attached PDF. The likes to driller logs should be live in the PDF. You can see the geoprobes and monitoring well logs for Jackson starting about the 11th one down.

Hope this helps
Katie

Katie-
We are trying to determine whether a geoprobe is going to help us get gw samples through this area. The boring logs from this report are encouraging but they're also all on the east side of the highway.

Would have any memory and/or knowledge of the subsurface there that might give us an idea of whether a geoprobe would be effective or not. We ask because we're aware that there are some pretty good sized cobbles within the tailings that this neighborhood is sitting on.
Thanks for any insights.
-Brooks

Thanks Katie. Do you know if the paper copy was correct?

Brooks, I listened to your message today, but it sounds like Katie was able to get the report to you.

Hi Brooks,

Hope you are doing good. Thanks for pointing out that I should never try to publish 3 PA reports at the same time. I have fixed the electronic version of the report to contain the correct attachments.

http://www.deq.state.or.us/Webdocs/Controls/Output/PdfHandler.ashx?p=3229fa8b-0597-405f-9e53-bdc6255f0eafpdf&s=5209_Rainbow_CANYON BLVD_PA_Report_02-23-2012.pdf

Hi Joanne – Just FYI the electronic version of the PA report for **Rainbow Cleaners – Canyon Bvd. (former),** [redacted], John Day, Grant County, CERCLIS No. ORN001002976 had the wrong attachments. A corrected report is available from the link above.

Thanks

Subject: FW: Rainbow Cleaners DEQ report

Hey Katie-
Long time no talk! I'm currently working on a vapor issue in John Day through our ER program. We were looking at some area records and found a report on a dry cleaners that is right in the area we are working but we were struggling with the report because some of the report appears to have gotten mixed up with that of another site.

The site is Rainbow Cleaners and I saw your name on one of the pages of the report. If you're around tomorrow could you give me a call to discuss whether an intact report exists for this site. We'd love to get our hands on it.

Thanks!
