Dear Colleagues,

September 22nd will be the 60th anniversary of President Kennedy signing the Peace Corps Act, establishing the Peace Corps. Please join OCSPP for a celebration of the Peace Corps' 60th Anniversary as part of our Great Place to Work (GP2W) Café series. The Café will be held on **Wednesday, September 22nd, 2021** at **11:00 am** and is entitled "Lessons from Around the World."

Returned Peace Corps volunteers (RPCVs) from our own ranks will share their experiences. We will hear from colleagues who served in Guatemala, China, Jordan, Lesotho and other places. In addition to talking about their service, they will share lessons that they took away from their time in the Peace Corps that everyone can use in their personal or professional life. There will also be time for questions and answers.

We hope you are able to participate and hear about the exciting experiences of our colleagues in OCSPP!

All the best,

Tom

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.
Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.
"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.

Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.

Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.

"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.

Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.

Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.

"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.

Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

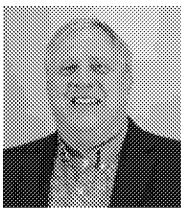
Dear Colleagues,

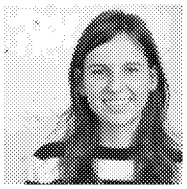
Please join us at our next **OCSPP Café: Novel Science, Taking the Bite Out of Mosquitoes** on **Thursday, September 9 at 1:00 p.m.**

Mike Mendelsohn, Wiebke Striegel, Amanda Pierce and Matt Weiner of OPP will discuss their careers, and cutting-edge mosquito control products they work on in the Emerging Technologies Branch of the Biopesticides and Pollution Division including genetically engineered mosquitoes and Wolbachia bacteria containing mosquitoes.

We hope you are able to participate and hear about the exciting work of our colleagues in OPP!

Mike Mendelsohn joined EPA in 1987 and has worked in the risk assessment and management of biopesticides, as well as the risk management of conventional insecticides and antimicrobial pesticides. He worked with the USDA/APHIS Biotechnology Regulatory Services on detail and as a liaison with EPA. Mike currently serves as Chief of the Emerging Technologies Branch in the Biopesticides and Pollution Prevention Division of OPP. Mike also chairs the OECD Ad Hoc Expert Group on RNAi-based pesticides and is a delegate to the OECD Working Party on Harmonization on the Regulatory Oversight of Biotechnology and the Working Party on Products for the Safety of Novel Foods and Feed.





Wiebke Striegel joined the Biopesticides Division's Microbial Pesticides Branch in 2015 as a AAAS Science & Technology Policy Fellow. The following year she moved into a risk manager position in that branch, working on the first registration of a modified mosquito used for mosquito control. Wiebke is currently the senior scientist for human health and product characterization in the Emerging Technologies Branch, which she joined in 2017. She is the co-lead of a rule writing effort to exempt certain genetically engineered plants that are indistinguishable from those that could have been created through conventional breeding. During her time in BPPD, Wiebke has worked on a broad range of risk assessment and policy questions in the biotech arena, both within USG and internationally.

Amanda Pierce joined the Emerging Technologies Branch in OPP's Biopesticides Division in 2018, after serving as a AAAS Science & Technology Policy Fellow in that branch the prior year. She has worked as an ecological risk assessor for plants genetically modified to protect themselves from insects or disease and mosquitoes modified for population suppression. She is co-lead of a rule writing effort to exempt certain genetically engineered plants that are indistinguishable from those that could be created through conventional breeding. In addition to work within the Agency, Amanda is part of multiple interagency working groups and international efforts focused on policy and risk assessment of emerging biotechnologies.

Matt Weiner Joined BPPD in 2017 and is currently a Risk Manager in the Emerging Technologies Branch in the Environmental Protection Agency. As part of the Emerging Technologies Branch, Matt has acted as the regulatory action leader and coordinated communication between EPA and registrants for multiple plant-incorporated-protectants and modified insect products.

All the best,
Tom

Briefing for OCSPP Managers & interested staff on the EPA Action Management System (EAMS).

EAMs was deployed in July and is the new system that replaced and combined four separate Notes based systems (ADP Tracker, Policy Review, FR Dailies and CRA Submissions). EAMs is designed to assist in the implementation of EPA's Action Development Process (ADP) and the processing of other Agency regulatory and non-regulatory actions for publication in the Federal Register.

This Briefing will cover the basics of EAMS in terms of what you need to know about purpose, requirements and utility. Since EAMS is a role-based system, this briefing will also describe roles and how to access detailed training for the various individual roles.

At the request of the Administrator and Deputy Administrator, please join them and the EPA Ethics team for a special presentation about the Hatch Act featuring Ana Galindo-Marrone, who is the Chief of the Hatch Act Unit of the Office of Special Counsel. For the past 20 years, Ms. Marrone has led her staff in investigating and prosecuting Hatch Act violations. We are honored that she is available to give this presentation to our political appointees. Please join us in Microsoft Teams on Monday, September 20 from 3:30 to 5:00 pm EDT.

Although this session will not count for your one hour of annual ethics training, you will find it very informative and your attendance is *strongly encouraged!* As you know, the Hatch Act limits certain political activities of federal employees. This session will guide you in understanding your obligations and responsibilities under the Hatch Act.

Briefing for OCSPP Managers & interested staff on the EPA Action Management System (EAMS).

EAMs was deployed in July and is the new system that replaced and combined four separate Notes based systems (ADP Tracker, Policy Review, FR Dailies and CRA Submissions). EAMs is designed to assist in the implementation of EPA's Action Development Process (ADP) and the processing of other Agency regulatory and non-regulatory actions for publication in the Federal Register.

This Briefing will cover the basics of EAMS in terms of what you need to know about purpose, requirements and utility. Since EAMS is a role-based system, this briefing will also describe roles and how to access detailed training for the various individual roles.

Greetings Colleagues,

OPS invites you to join our Health and Wellness Wednesday event on **Wednesday, August 25, 2021, from 12 pm to 1 pm!** We partnered with the agency's benefits branch and are hosting an informational session, Understanding the Employee Assistance Program (EAP).

This session is an overview of key components of the EAP and how to access the services. At one time or another, many of us may face a personal challenge that impacts the quality of our home life, personal relationships, our own and our family members' health, or our ability to do our best at work. We often lose sight of the fact that we do not have to handle it alone. There are times when we could benefit from some professional, objective guidance. The EAP is available to assist you when coping with life's setbacks. The EAP Program offers counseling services such as alcohol and drug abuse, bereavement, crisis intervention, emotional distress, job performance, family issues, separation and divorce, work-life benefits, and much more.

All are welcome to learn about this work-based program!

Best,

OPS Training and Development Team

Join today for our next webinar in the American Phytopathological Society (APS) seminar series! Join BEAD and Linda Kinkel, an APS Fellow and professor in the department of Plant Pathology, to learn about microorganisms in soil and how soil health affects plant health.
--
Microbes and plants exist within complex networks of interacting plant and microbial species. Within these interacting networks, the potential for microbiome management via nutrient amendments, crop rotation, tillage, and microbial inoculants is of significant interest. However, the specific impacts of management on microbiome functional capacities remain poorly understood. This talk will describe how unraveling the complex network of competitive and coevolutionary interactions between plants and their soil microbiomes, and within soil microbiomes, can suggest novel insights for active management of soil microbes to support plant productivity. Dr. Kinkel's work shows that strategies for mediating competitive and coevolutionary interactions, including via soil nutrient amendments, microbial inoculants, or shifts in cropping systems, show promise for shifting the functional potential of soil microbiomes. Overall, understanding the diffuse networks of species interactions occurring over diverse spatial scales will be critical to effective microbiome management for sustainable disease control.

Briefing for OCSPP Managers & interested staff on the EPA Action Management System (EAMS).

EAMs was deployed in July and is the new system that replaced and combined four separate Notes based systems (ADP Tracker, Policy Review, FR Dailies and CRA Submissions). EAMs is designed to assist in the implementation of EPA's Action Development Process (ADP) and the processing of other Agency regulatory and non-regulatory actions for publication in the Federal Register.

This Briefing will cover the basics of EAMS in terms of what you need to know about purpose, requirements and utility. Since EAMS is a role-based system, this briefing will also describe roles and how to access detailed training for the various individual roles.

Amanda Hauff is a Senior Advisor, the National Tribal Program Manager and the National Environmental Justice Program Manager for EPA's Office of Chemical Safety and Pollution Prevention. Throughout her career, she has worked on a variety of public health concerns to address disproportionately high and adverse human health and environmental issues that impact vulnerable populations.

Amanda's multidisciplinary expertise ranges from developing policy, scientific models, analytical tools, strategic plans, community-based projects and more. For example, Amanda has recently developed conceptual models and outlined guidance to understand and use (as appropriate) tribal exposure data to plan and conduct observational human exposure and considerations of tribal lifeways and sensitive populations, as well as executed a strategic framework to reduce disparities of blood lead levels in low-income children.

Amanda has a master's degree from American University in Public Policy and Administration. She is passionate about cultivating strong partnerships to improve on-the-ground results and actively coordinates with EPA partners to address environmental justice concerns in a holistic manner achieving better environmental outcomes and reducing disparities in the nation's most overburdened communities. Amanda also enjoys spending quality time with her family in the great outdoors and cuddling on the couch with her cats.

At the request of the Administrator and Deputy Administrator, please join them and the EPA Ethics team for a special presentation about the Hatch Act featuring Ana Galindo-Marrone, who is the Chief of the Hatch Act Unit of the Office of Special Counsel. For the past 20 years, Ms. Marrone has led her staff in investigating and prosecuting Hatch Act violations. We are honored that she is available to give this presentation to our political appointees. Please join us in Microsoft Teams on Monday, September 20 from 3:30 to 5:00 pm EDT.

Although this session will not count for your one hour of annual ethics training, you will find it very informative and your attendance is *strongly encouraged!* As you know, the Hatch Act limits certain political activities of federal employees. This session will guide you in understanding your obligations and responsibilities under the Hatch Act.

Location: Microsoft Teams Meeting

Start: 9/22/2021 3:00:00 PM
End: 9/22/2021 4:00:00 PM
Show Time As: Tentative

Required Attendees: OCSPP ALL; Jones, Ricardo
Optional Attendees: (unknown property type)

Dear Colleagues,

September 22nd will be the 60th anniversary of President Kennedy signing the Peace Corps Act, establishing the Peace Corps. Please join OCSPP for a celebration of the Peace Corps' 60th Anniversary as part of our Great Place to Work (GP2W) Café series. The Café will be held on **Wednesday, September 22nd, 2021** at **11:00 am** and is entitled "Lessons from Around the World."

Returned Peace Corps volunteers (RPCVs) from our own ranks will share their experiences. We will hear from colleagues who served in Guatemala, China, Jordan, Lesotho and other places. In addition to talking about their service, they will share lessons that they took away from their time in the Peace Corps that everyone can use in their personal or professional life. There will also be time for questions and answers.

We hope you are able to participate and hear about the exciting experiences of our colleagues in OCSPP!

All the best,
Tom

At the request of the Administrator and Deputy Administrator, please join them and the EPA Ethics team for a special presentation about the Hatch Act featuring Ana Galindo-Marrone, who is the Chief of the Hatch Act Unit of the Office of Special Counsel. For the past 20 years, Ms. Marrone has led her staff in investigating and prosecuting Hatch Act violations. We are honored that she is available to give this presentation to our political appointees. Please join us in Microsoft Teams on Monday, September 20 from 3:30 to 5:00 pm EDT.

Although this session will not count for your one hour of annual ethics training, you will find it very informative and your attendance is *strongly encouraged!* As you know, the Hatch Act limits certain political activities of federal employees. This session will guide you in understanding your obligations and responsibilities under the Hatch Act.

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable

risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.
Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.

"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.
Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.

Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.

"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.

Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

At the request of the Administrator and Deputy Administrator, please join them and the EPA Ethics team for a special presentation about the Hatch Act featuring Ana Galindo-Marrone, who is the Chief of the Hatch Act Unit of the Office of Special Counsel. For the past 20 years, Ms. Marrone has led her staff in investigating and prosecuting Hatch Act violations. We are honored that she is available to give this presentation to our political appointees. Please join us in Microsoft Teams on Monday, September 20 from 3:30 to 5:00 pm EDT.

Although this session will not count for your one hour of annual ethics training, you will find it very informative and your attendance is *strongly encouraged!* As you know, the Hatch Act limits certain political activities of federal employees. This session will guide you in understanding your obligations and responsibilities under the Hatch Act.

This is a leadership-level pre-meeting in advance of an Administrator-level Options Selection meeting under EPA's Action Development Process (ADP). This meeting will address regulatory issues and options for addressing the unreasonable risks of Chrysotile Asbestos under TSCA §6(a) and is intended to help prepare EPA's senior leadership for the meeting with the Administrator.

Under the ADP, Options Selection is the last step in the development process before the rulemaking workgroup completes the drafting of the action. At this point, the workgroup has usually completed its research, consulted with stakeholders, conducted analyses and completed peer review, identified issues and scoped out the costs and benefits, pros and cons, and feasibility of the options available. After doing this, the workgroup identifies several possible options for each issue and recommends the ones that would achieve a quality action. During an Options Selection meeting, the workgroup-identified issues and proposed options are discussed, and the Administrator will select from among the options and decide how the Agency should proceed.

"Can I delegate this meeting?"

Yes. The invited (Acting/Principal Deputy) AAs, at their discretion, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

"Does my office need to participate?"

Attendance is required only if the invited (Acting/Principal Deputy) AAs or their designees expect to raise any issues or concerns related to the regulatory options and recommendations during the Options Selection meeting.

Each participating office is asked to please send its AA or AA-designated management representative and any other participants identified by the participating AAs. To facilitate timely meeting preparations and participant selection in your offices, each AAship's Regulatory Steering Committee representative and workgroup member(s) are identified as "optional" meeting participants.

Dear Colleagues,

September 22nd will be the 60th anniversary of President Kennedy signing the Peace Corps Act, establishing the Peace Corps. Please join OCSPP for a celebration of the Peace Corps' 60th Anniversary as part of our Great Place to Work (GP2W) Café series. The Café will be held on **Wednesday, September 22nd, 2021** at **11:00 am** and is entitled "Lessons from Around the World."

Returned Peace Corps volunteers (RPCVs) from our own ranks will share their experiences. We will hear from colleagues who served in Guatemala, China, Jordan, Lesotho and other places. In addition to talking about their service, they will share lessons that they took away from their time in the Peace Corps that everyone can use in their personal or professional life. There will also be time for questions and answers.

We hope you are able to participate and hear about the exciting experiences of our colleagues in OCSPP!

All the best,
Tom

Dear Colleagues,

September 22nd will be the 60th anniversary of President Kennedy signing the Peace Corps Act, establishing the Peace Corps. Please join OCSPP for a celebration of the Peace Corps' 60th Anniversary as part of our Great Place to Work (GP2W) Café series. The Café will be held on **Wednesday, September 22nd, 2021** at **11:00 am** and is entitled "Lessons from Around the World."

Returned Peace Corps volunteers (RPCVs) from our own ranks will share their experiences. We will hear from colleagues who served in Guatemala, China, Jordan, Lesotho and other places. In addition to talking about their service, they will share lessons that they took away from their time in the Peace Corps that everyone can use in their personal or professional life. There will also be time for questions and answers.

We hope you are able to participate and hear about the exciting experiences of our colleagues in OCSPP!

All the best,
Tom

Show Time As: Tentative

Required Attendees: Tyler, Tom; OCSPP ALL; Jones, Ricardo

Dear Colleagues,

September 22nd will be the 60th anniversary of President Kennedy signing the Peace Corps Act, establishing the Peace Corps. Please join OCSPP for a celebration of the Peace Corps' 60th Anniversary as part of our Great Place to Work (GP2W) Café series. The Café will be held on **Wednesday, September 22nd, 2021** at **11:00 am** and is entitled "Lessons from Around the World."

Returned Peace Corps volunteers (RPCVs) from our own ranks will share their experiences. We will hear from colleagues who served in Guatemala, China, Jordan, Lesotho and other places. In addition to talking about their service, they will share lessons that they took away from their time in the Peace Corps that everyone can use in their personal or professional life. There will also be time for questions and answers.

We hope you are able to participate and hear about the exciting experiences of our colleagues in OCSPP!

All the best,
Tom
