Description

Unique identification number
Date when call was received
Applicator or Non applicator
How many acres were affected?
Location of field - State
Location of field - County
Plantng date
Date on which phone interview was attempted
Date when interview was conducted
Date of visit
When was the symptomology first observed on
Preliminary assessment made by grower
Latitude
Longitude
Total acres
Inquiry crop
Crop variety planted on affected field
Brand of the affected crop
Soy growth stage showing maximum symptomology
Soy growth stage showing least symptomology
Crop height (inches) showing max. symptomology
Crop height (inches) showing least symptomology
How is the injury spatially distributed?
What was the first action taken upon observing symptomology. 999 is Unknown
Were pictures taken?
Are you willing to share with Bayer?
Are you willing to share with Bayer?
Any other symptoms?
Was symptomology observed by others?
Was the state contacted
Was the state contacted
Was sprayed cleaned out prior to application?
Was the application made by a certified applicator?
Was dicamba applied on the farm or in negboring fields?

Description

Unique identification number
Inquiry date
Applicator or Non applicator
Location of field - State
Location of field - County
Inquiry crop
Attempt for first interview
Interview date
Field visit date
Planting date
Date when symptomology was first observed
Location of field - latitude
Location of field - longitude
Total acres treated
Last year's crop
Crop planted on the source field
Brand of affected crop
Variety of affected crop
Condition of crop during application
Crop development stage
Who applied the product? Custom applicator or grower
Refills
Amount of dicamba used
data of purchase
container type
lot #
Spray rate
Spray speed
Spray pressure
Nozzle make
nozzle spacing
boom length
boom height
Device used for wind speed
Spray start latitude
Spray start longitude
Was buffer used?
buffer width
Does the affected field belong to same farmer
What crop was affected
Preliminary assessment made by claimant
Distance From Source Field to Affected field; Values of 999 or 9999 are unknown
injury pattern
Soy growth stage showing maximum symptomology
Crop height (inches) showing max. symptomology
