An entry used to backout/correct an outlay recorded against the wrong action to a vendor inside the agency (e.g. payroll or travel).	**L**	**Intramural De-Payment (de-outlay)**
An entry used to backout/correct an outlay recorded against the wrong action to a vendor outside the agency.	**I**	**Extramural Deoutlay (Credit)**
An estimate of the total cost of an action.	**S**	**Estimated Cost**
An obligation is the second step of the spending chain. It reduces the amount committed to an action and makes funds available to be expended. Obligation occurs when the contract between EPA Superfund and the vendor is signed.	**A**	**Actual Obligation**
Subtraction of money that was originally set up for tasking, reducing the amount of tasking by the amount that is not used.	**W**	**De-Tasking**
The check or electronic transfer to a vendor inside the agency (e.g. payroll or travel).	**K**	**Intramural Payment (outlay)**
The check or electronic transfer to a vendor outside the agency.	**O**	**Extramural Outlay (Payment)**
The first step of the spending chain. It commits an amount of money to an action that can later be obligated. The commitment occurs when a purchase requisition document is signed.	**C**	**Commitment**

Description:	**Section 107 (r) provides that bona fide prospective purchasers are not liable as owner/operators for CERCLA response costs, but the property they purchase may be subject to a windfall lien where an EPA response action has increased the fair market value of the property. This lien arises "at the time at which costs are first incurred by the United States with respect to a response action at the facility." To "perfect" the lien, EPA must file a notice of the lien in accordance with CERCLA's statutory requirements.**

Action Name:	**LITIGATION (GENERIC)**		
Action Code:	**LT**	Action Short Name:	**LITIGATE**
Program Area:	**Enforcement**		
Description:	**This activity is used to code referrals for litigation that cover any combination of remedies or statutes (CERCLA, SARA, RCRA) not reflected in the conventional activity types of SX (Section 106), SV (Section 107), CL (combined 106/107), and SF (Section 104). If preferred, this activity can be used to code all referral types instead of using the conventional SX, SV, CL, SF codes. Because this activity is generic, coding the statutes (statute) and the remedy types (remedy) correctly is mandatory. All other edit checks and coding requirements that apply to SX, SV, CL, and SF apply to LT as well. Examples: action=LT, statute=106, remedy=RA is equivalent to SX; action=LT, statute=107, remedy=VA is equivalent to SV; action=LT, statute=106,107, remedy=VD, RA is equivalent to CL; action=LT, statute=104, remedy=SE, DE is equivalent to SF; action=LT, statute=104,107,106, remedy=DE, VM, RD, RA, is a combination not covered by SX, SV, CL, SF.**

Program Area:	**Site Assessment**		
Description:	**This action is used to code negotiations that cover any combination of remedies or statutes (CERCLA, SARA, RCRA) not reflected in the conventional activity types of AN (RD/RA negotiations), FN (RI/FS negotiations), RN (removal negotiations) and NE (cost recovery negotiations). If preferred, this activity can be used to code all negotiation types instead of using the conventional AN, FN, RN, and NE codes. Because this activity is generic, coding the statutes and the remedy types correctly is mandatory. All other edit checks and coding requirements that apply to AN, FN, RN, and NE apply to NG as well. Examples: action=NG, statute=106,122, remedy=RA is equivalent to AN; action=NG, statute=107,122, remedy=VA is equivalent to NE; action=NG, statute=106,122, remedy=RV is equivalent to RN; action=NG, statute=106,122, remedy=CO is equivalent to FN; action=NG, statute=106,122, remedy=OM, VD, VA, CO are combinations not covered by AN, FN, RN, NE.**

Program Area:	**Site Assessment**		
Description:	**The actual field work conducted toward the completion of a remedial action. Prior to award, this item will contain a realistic date to indicate when construction is scheduled to be 100 percent physically complete. An entry will be made in this field as soon as design has progressed to a point where the construction time can be reasonably estimated. At the time of the award, this must be the final construction completion date included in (or computed from) the original contract documents. As work proceeds, the current and expected dates reflect firm and pending MOD transactions. This field value represents a subevent to Remedial Action (RA).
