Subject: RE: North Basin Data

Hi Kim. Kennedy/Jenks, our North Basin consultant, is currently working on getting you the PRP site list and data.

Today, I will send Rachelle two sets of the North Basin plume maps (hard copy), along with a CD that contains pdf and shape files. We recently made a minor correction to the Shallow/Perched PCE plume map, which necessitated a correction to the composite VOC plume map. Specifically, there is a small plume around OCWD monitoring well AM-42A (near the southeast corner of the Northrop ESD site) that should have been contoured with a higher concentration interval.

Subject: RE: North Basin Data

Dave:

I received the CD with the North Basin Data. I would appreciate very much if you could send me your summary list of sites that you presented at the last meeting. I would like to consolidate our list of sites for PA/SI and decide on a course of action moving forward. If possible, please send the list to me via email, and follow up with any information you might have collected on these sites in a CD. Please let me know if you have any question or concern with this request.

Thanks very much,

Subject: North Basin Data

Hi Kim. I am mailing you a CD with North Basin data. The data are for production wells and OCWD monitoring wells (single-casing and multiport). Note: OCWD is not a water purveyor; so, we don't own or operate any production wells. We did install 6 extraction wells in the North Basin area that were intended to be used for remediation. Those wells have not been operated. However, we have limited sampling data for those wells, which is included in the data you will receive. The data includes well type, location, well construction, lithology, and water quality. I am sending two files with water quality data, one with everything, and one with just TCE, PCE, 1,1-DCE and 1,4-dioxane.

Our consultant Kennedy/Jenks will get you PRP site data.

Don’t hesitate to call me if you have any questions.

-Dave
