* This list includes those samples reported over 15ppb (the lead action level 141.80). Per EPA's rounding memo, WSG 20, in calculating data for compliance purposes, it is necessary to round-off by dropping the digits that are not significant. The last significant digit should be increased by one unit if the digit dropped is 5, 6, 7, 8 or 9. If the digit is 0, 1, 2, 3, or 4, do not alter the preceding number.
