Importance: High

Hi, Julie. I have been on extended leave since June 25th and assumed this was getting taken care of. Can you let me know ASAP if you didn't get something on FMC? I believe Jonathan Williams is out of the office today. I am teleworking today and can try and scramble to put something together, but it will take at least a few hours.

Thanks!

Just checking to see if you have updated the FMC briefing paper Andy forwarded to you last week.

HQ has asked for it by today so they can update their managers for their meetings with Tribes next week.

Since Dennis will be at some of the meetings as well, we will also be providing the updated briefing papers on Simplot and FMC to Dennis.

Thanks,
