Subject: RE: Grading Plan and Appendices?

Thanks for checking in. EPA has not yet received the Revised Grading plan and Appendices.

In the past, has MWH put submittals on their own FTP site and/or provided copies directly to EPA's contractors?

It's fine to leave Ed and Craig's comments as written for now. I'll then figure out how to edit as needed, likely with their input, so EPA comments are sufficiently clear about our expectations.

Subject: Grading Plan and Appendices?

Johnathan-

I just wanted to check on the status of the Revised Grading Plan and Appendices. I realized that they will probably be too big to email so I suspect they might be arriving via fedex today. I wanted to let you know I will be traveling today and if they show up, please let myself and Mary (cc'd) know and we will send someone over to get the CD's and get those distributed via our FTP site. We should be able to do that today since we have BAH folks that work over on the 7th floor of your building.

We will be able to consolidate the GWTS comments and have those to you tomorrow, but we are not sure we can provide recommendations for changes for Ed Barth's comments and Craig Patterson's comments as it might require talking to them about what they want done with respect to their comments. Regardless, if that is the case we will give you a heads up on the EPA comments that we were not able to resolve the recommendations for by tomorrow COB. Please let me know if you have any questions.

Tx,
