Summary System Status	Definition	Sample Invalidation Reason	Type of ALE
Not Subject to the Rule	PWS is either a transient PWS or no longer an active PWS.	(i) Lab establishes that improper sample analysis caused erroneous result,	Pb
Data Entry Error	Erroneous data resulted in false positive for ALE.	(ii) State determines that sample taken did not meet site selection criteria,	Cu
Invalid Sample	Sample was invalidated by the State consistent with 40CFR141.86(f).	(iii) sample container was damaged in transit,	Both
Active ALE	Most current PB90 is above the action level. System must initiate the treatment steps	(iv) substantial reason to believe that sample was subject to tampering	
Treatment Steps Required	PWS does not have 2 six month samples below the action level, or other resolving action. Or, PWS needs data management attention.		
Sampled out	PWS has 2 six month samples below the action level but no PE		
Resolved	PWS has 2 six month samples below the action level and PE is completed.		
OWQP Required	PWS exceeded the AL after sampling out or resolving a prior ALE. CCT is required in accordance with 40CFR141.81(c).
